ABOUT ME

An enthusiastic Junior Web Developer with an aptitude for learning new things. As an engineering student, I have the skill to communicate appropriately, solve problems, and adapt.

EDUCATION

Jacobo Z. Gonzales Memorial School of Arts and Trades

Diploma in Mechatronics Engineering

2022 - Present

CERTIFICATION

Full-Stack Web Development

KodeGo

December 2022

Gained new knowledge on the inner workings of a website and learned how to make one.

PROJECTS

The Brewster
the-brewster.netlify.app

Tools used: ReactJS, tailwindcss

A single page static website that has a simple design that is straightforward for the user.

Web Portfolio
<https://rali-webprofile.netlify.app>

Tools used: ReactJS, tailwindcss

This portfolio will include links to my projects and a simple about me section.

Created mainly using ReactJS as the frontend framework, tailwindcss for styling, react-icons for website icons, etc.
